

ProArgi-9+

CITRUS BERRY STICK PACKS

Synergy's premiere health enhancement product ProArgi-9+ is manufactured using state-of-the-art equipment after it's tested hundreds of times. Each batch of ProArgi-9+ is tested for contaminants down to the parts per trillion. One of the primary ingredients in ProArgi-9+ is L-arginine, which was researched by three American scientists who were awarded the Nobel Prize in 1998 for discovering its powerful health benefits. ProArgi-9+ contains five essential vitamins: Vitamin C, Vitamin D3, Vitamin K, Vitamin B6 and Vitamin B12. Each plays a vital role in supporting the body's overall performance. Vitamin C contributes to the normal functioning of the nervous and immune systems while reducing fatigue and contributing to normal psychological function. Vitamin B6 and B12 share a few health benefits with Vitamin C, but also play an important role in normal red blood cell formation and homocysteine metabolism. Vitamin K has a set of its own benefits, playing a key part in maintaining normal bones and blood coagulation.

The combination of ingredients in ProArgi-9+ was meticulously formulated to support exceptional health. This product is pure, potent and formulated to help you live life optimized.

INSTRUCTIONS

Mix 1 serving (1 packet) in 240 mL of water. Stir or shake to dissolve. Suggested serving size is 1 packet per day. Store in a cool, dry place.

BENEFITS
