ENERGY WITH L-ARGININE

Your life demands constant energy. Schedules are packed tight with activities and commitments that require you to be at your best around the clock, even when you are battling exhaustion. In the middle of a hectic day, you may find that your energy levels are depleted before lunch, making it nearly impossible to cross off everything on your to-do list.

Synergy's e9 energy formula is powered by L-arginine and a blend of Vitamin B12 and B6, riboflavin, thiamin and pantothenic acid, each of which lends to a normal, energy-yielding metabolism. This flavourful mix also contains natural caffeine sources, including guarana seed and yerba mate extract. Every ingredient is safe and of the highest quality, providing you with a low-calorie boost when you need it most.

This combination of ingredients was designed to help you safely sustain your energy levels. Vitamin B12 and B6, along with pantothenic acid, not only contribute to an energy-yielding metabolism; they help reduce fatigue while supporting normal mental performance. Yerba mate extract contains properties that can strengthen the body while helping you feel more energetic. Its stimulating and tonic properties play a role in resisting mental and physical fatigue.

Today, there are dozens of quick fixes for low energy, but with e9 you can trust that you are taking a product that supports your healthy lifestyle. No matter what time of day it is, if you are fighting to focus, stay alert and stay energised, mix up a serving of e9 and enjoy its refreshing, piña colada flavour.

INSTRUCTIONS

Mix 1 serving (1 packet) in 240 ml of water. Stir or shake to dissolve. Suggested serving size is 1 packet per day.
